

Urban Erosion and Sediment Control in Georgia
<http://gaswcc.georgia.gov/urban-erosion-sediment-control>

The Erosion and Sediment Control Program was set up to improve and protect Georgia's urban soil and water resources by reducing the amount of erosion from urban development sites.

Manual for Erosion and Sediment Control in Georgia is available at <http://gaswcc.georgia.gov/manual-erosion-and-sediment-control-georgia>

NPDES General Permit Nos. GAR100001 (Stand Alone), GAR100002 (Infrastructure) and GAR100003 (Common Development) have been issued by the GA EPD. The documents are effective September 24, 2013, and are available at <http://gaswcc.georgia.gov/documents-list>

Anyone involved in land development, design, review, permitting, construction, monitoring, inspection, or any land-disturbing activity in Georgia must meet education requirements and be certified by the Georgia Soil and Water Conservation Commission. Information on being certified for land-disturbing activities in Georgia is available at <http://gaswcc.georgia.gov/education-and-certification>

How Do I Get Involved?

Georgia has 40 soil and water conservation districts led by 370 district supervisors. Supervisors are either appointed to a two-year term or elected for terms of four years. The next election of supervisors will occur in 2014. If you are interested in becoming a supervisor, information on the process is available by calling the Georgia Soil and Water Conservation Commission at (706) 552-4470 or going to <http://gaswcc.georgia.gov/how-do-i-become-swcd-supervisor>
