

## GSWCC attends the Georgia Farm Bureau's 85<sup>th</sup> Annual Convention.

The GFB Annual Convention was held December 4-6 at Jekyll Island. GSWCC staff provided attendees who stopped by the booth with information about the Commission, Soil & Water Districts and other programs administered by the agency. Other staff set up a booth to represent and provide information about both the Georgia Envirothon and the Natural Resources Conservation Workshop – both programs are for Georgia High School students. Many Georgia commodity groups were in attendance as well as various state agencies and non-profit groups.

Karen Bruce and Region III Conservation Manager, Nancy Ann Conner
