

On July 10, 2024, Breyanna Williams, GACD's scholarship winner from NRCW, attended the July Oconee River SWCD meeting. The district sponsored her attendance to the Natural Resources Conservation Workshop at Abraham Baldwin Agricultural College in Tifton, GA as well as donating toward the scholarship. Breyanna has jumped in with both feet and is interning with the local NRCS office to broaden her knowledge in the conservation and environmental science fields. She is hoping this experience will help her decide which major to choose for college. Breyanna is pictured with the District Supervisors of Oconee River SWCD. Congratulations, Breyanna, and keep up the good work!
