

Georgia Soil and Water Conservation Commission Region III staff participated in Community Reader Day for Read Across America Week at Treutlen County Elementary School. Pictured above is Admin Assistant Christi Brantley reading "Diary of a Worm", along with the whole Community of readers. After reading the book, the students were treated to a snack and drink.

Thank You so much to TCES staff for our appreciation gift and for asking GSWCC to be a part of this great cause! We had a blast!!

A special thank you to GACD, RPM Katelyn Poppell for providing the books we read.
