

Marbury Creek #22, Barrow County: J&K Utilities of Jefferson, Ga was contracted to widen the existing auxiliary spillway to 200 ft. and restore the slopes of the dam to original grade after years of damage. View the pictures below to see the progression of construction on this watershed structure.

Preconstruction on Marbury Creek #22

J&K Utilities brings in fill dirt and re-grades the slope of the dam.

The slope is seeded and mulched.

The newly vegetated front slope and spillway.
