### Eligibility Requirements for Plan Reviewers

**Course and Exam:** Introduction to Design Seminar Level II certification will take place upon completing at least 6 months work experience in the field of erosion and sediment control, registering for and attending an approved and posted Conservation Commission “Introduction to Design (Level II),” submitting the appropriate application form for review and approval by the Conservation Commission, and obtaining a passing score of 70% on the Level II certification examination. In lieu of 6 months of work experience, an individual may obtain Level IB Certification.

**Exam Only:** Completing at least 6 months of work experience in the field of erosion and sediment control, registering for and attending a Conservation Commission approved and posted Level II examination date, submitting the appropriate application for review and approval by the Conservation Commission, providing proof of attendance from a Conservation Commission “Design of Vegetative Measures and Structural Practices for Erosion and Sediment Control Workshop” or equivalent Conservation Commission approved course within three years prior to the examination and obtain a passing score of 70% on the Level II certification examination. In lieu of 6 months of work experience, an individual may obtain Level IB Certification.

### Certification Statement

*I hereby certify that I fully understand the eligibility requirements for Introduction to Design Seminar Level II certification. The information submitted on this application is, to the best of my knowledge and belief, true, accurate and complete. I am aware that submitting false information may result in denial of certification.*
