Georgia Dirt & Gravel Road Workshop

— ◆ — Agenda — ◆ —

Attendance

All county/city administrators, engineers, public works directors, road supervisors, equipment operators and other county/city officials responsible for the maintenance of unpaved roads are encouraged to attend. The workshop is designed to teach new concepts for maintaining unpaved roads with an emphasis on protecting water quality.

Course Instructors

- Mr. Mike O'Quinn has been practicing law for over 25 years. He specializes in local government law, and has represented counties throughout the state as a lawyer for the Association of County Commissioners of Georgia. As a part of his practice, he has defended numerous county governments in lawsuits alleging negligent roadway maintenance and water quality violations.
- Ms. Beverly Fontenot has over twenty years of training /employee development experience. She has been with the Georgia Department of Transportation LTAP office for over 14 years, where she was previously the Training Coordinator before assuming her current role as Program Director. Some of her jobs include, course developer, leadership & management instructor, career counselor, training manager, functional manager, and director of training.
- Mr. John Hopkins has over 30 years experience providing road maintenance training to county governments in 35 states. His major areas of expertise include design, construction, and maintenance of low volume roads; developing and conducting technology transfer programs for local officials; roadway, bridge, and plant construction; and materials analysis.
