Mr. James A. Sommerville  
GA EPD – Program Coordination  
Floyd Towers East, Suite 1452  
2 MLK Jr. Drive, SE  
Atlanta, Georgia 30334-9000

Dear Jim,

As stated in *The Manual for Erosion and Sediment Control in Georgia*, “Approved silt fence fabrics are listed in the Georgia Department of Transportation Qualified Products List #36 (QPL-36).”

The Georgia Soil and Water Conservation Commission recognizes the Georgia Department of Transportation QPL-36 as referred to in *The Manual* as an approved product list for silt fencing (Sd1). GSWCC appreciates your full cooperation in the acceptance of innovative products and creative engineering practices that are listed on the QPL-36.

If you have questions regarding this matter, please contact Lauren Zdunczyk, Urban Program Manager at 706-542-3065.

Respectfully,

Brent L. Dykes
